Work Experience

Mobile Product/UX Designer, November 2021 to Present

AccuLynx (Beloit WI)

- Conducted dozens of stakeholder/customer interviews to establish collective understanding around our customers and their needs.
- Conducted numerous usability tests using clickable prototypes that uncovered pain points/inaccuracies in the current designs.
- Created a system of design documentation and style guides that will assist with the future onboarding of new designers.

Student Intern, April 2021 to June 2021

Childhood Cancer Warriors Foundation

- Interviewed cancer families, benefactors, and volunteers to create user personas and journey maps for the CCW website.
- Redesigned the information architecture on the foundation's website to create a more simplified and intuitive taxonomy.

User Experience Design Intern, May 2018 to August 2018

AccuLynx (Beloit WI)

- Created responsive designs for AccuLynx's Reports Plus and Crew Management features so they could be used seamlessly across different devices.
- Created both high and low-fidelity wireframes for web and mobile applications to help launch new features into the app.

Education

Master's Degree in Human-Computer Interaction, 2019-2021

DePaul University (Chicago IL)

Graduated with distinction from a program centered around the intersection of research and design.

Bachelor's Degree in Fine Arts, 2016-2018

University of Illinois at Chicago
